INTEREST REPORTING INSTRUCTIONS

Effective January 1, 1983, interest of $10.00 or more paid on each cash transaction which includes savings bond/note redemptions will have to be reported by the paying agent to the Internal Revenue Service and to the payee. Payees are required to provide their social security or taxpayer identification numbers. If they refuse--do not redeem the securities.

If Series E/EE bonds or Savings Notes are exchanged for Series HH bonds in a tax-deferred exchange, that portion of a refund in excess of purchase price, representing interest, is reportable. If it is not a tax-deferred exchange, the total interest accrual is reportable.

A transaction for this purpose is defined as a single payment and it may include multiple savings bonds, savings notes and coupons. The redemption tables show two columns for each denomination: the first is the redemption value, and the second is the interest paid and subject to reporting.

The information return must be filed with the IRS Service Center on or before February 28, of the following year, and a copy must be provided to the payee either at time of transaction or if sent by mail no later than January 31, of the following year. The information required is the same as that which your institution reports on other interest.

Refer to Section 6049 of the Internal Revenue Code of 1954, as amended by the Tax Equity and Fiscal Responsibility Act of 1982 (Public Law 97-248,96 Stat. 324,26 U.S.C. 6049, and supporting regulations 26 CFR Part 1.6049) for additional information concerning this reporting requirement.

EXAMPLE

A $1000 denomination Series E bond that was issued in August 1979 and presented for redemption in May 1986 would have a redemption value of $1,227.60 and interest earnings of $447.60. These amounts can be found in the table for May 1986 under the $1000 denomination and on line with the issue date of August 1979. Note the interest earned amount is shaded. The interest earned amount of $447.60 is more than $9.99 and must be reported to IRS and the payee. (Note: To determine redemption value and interest earned for the $10,000 denomination multiply the appropriate $1,000 denomination amount by 10.)

Payment of Bonds/Notes

1. Adhere to the requirements governing identification which are contained in Form PD 3900 dated October 1971 and revised November 1983.
2. Always use current monthly table and destroy old tables.
3. Do Not pay:
   (a) Bonds/Notes inscribed in names other than individuals.
   (b) Beneficiaries named in inscription.
   (c) Bonds/Notes where month and year of issue are not clear, or an impression of the issuing agents dating stamp is missing.
   (d) Mutilated or defaced bonds/notes or those which, for any reason, do not appear to be genuine.
   (e) Bonds/Notes requiring legal evidence to redeem.
   (f) If the presenter's SSN is not shown in the inscription, and he/she refuses to furnish the number.

BONDS/NOTES IN THE ABOVE CATEGORIES SHOULD BE FORWARDED TO THE FEDERAL RESERVE BANK, EXCEPT WHEN THE SSN IS NOT PROVIDED. IN THAT CASE, RETURN THE BOND/NOTE TO THE PRESENTER.

4. Show clearly on each bond/note the imprint of payment stamp and amount paid. Do not stamp the bonds/notes if they are being forwarded to the Federal Reserve Bank for redemption.
5. After a bond/note has been redeemed it cannot be reinstated.

Batching Redeemed Bonds and Notes

1. Series E, EE Card Bonds and Savings Notes redeemed in the SAME CALENDAR MONTH may be included in the same transmittal letter (Form PD 2639).
2. Series A-E Paper Bonds should be batched separately from card bonds and notes, and forwarded under cover of separate transmittal letters. Agents should insure that each transmittal letter is appropriately marked CARD or PAPER and attached to the appropriate bonds.

Distribution of Booklets

These booklets are distributed direct to qualified paying agents by the Bureau of the Public Debt. Paying agents may obtain additional booklets from the Federal Reserve Bank or Branch to which they send paid bonds. The Federal Reserve Bank or Branch should be notified of any change in the number of booklets required on a regular basis. The public may purchase booklets from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

A-D Bonds. All bonds of Series A, B, C, and D have matured and the redemption value of each bond of these series is the face amount printed on the bond.

All Series E bonds do not increase in value on the same basis. The term of maturity and yield have been revised several times. This accounts for the fact that older bonds may have less redemption value than newer bonds.

Excerpts from the Regulations Governing Payments of U.S. Savings Bonds and Notes

Note: The following material has been excerpted from Department of the Treasury Circular No. 750 current revision (31 CFR Parts 321, 322 and Appendix), copies are available upon request from the Federal Reserve Bank.

321.7 *Authorized cash payments.*

Subject to the terms and conditions appearing on the securities, the governing regulations, and the provisions of this Circular and any instructions issued in connection therewith, an agent may make payment of savings bonds of Series A, B, C, D, E, and EE and savings notes presented for cash redemption. Except for change of name by marriage or the parent of a minor the securities must be presented for redemption by an individual whose name is inscribed on the securities as owner or coowner and who is known to the agent or can establish his or her identity in accordance with Treasury instructions and guidelines.

An agent may also accept eligible securities submitted by mail or otherwise for payment from known customers, provided each such customer is also the owner requesting payment. In such cases, the agent should be satisfied that the signature to the request for payment is that of the "owner-customer" and should have written instructions to credit the proceeds to his or her checking, savings, or share account, or to make other disposition thereof. For the agent's protection, such instructions should be retained.

321.9 *Specific limitations on payment authority.*

An agent is not authorized to pay a security for cash or on redemption-exchange:

(a) If it is a Series EE bond presented for payment prior to the end of six months from its issue date.

(b) If it is a savings bond of Series F, G, H, J, K, or HH.

(c) If the presenter is the designated beneficiary.

(d) If the presenter is acting under a power of attorney.

(e) If the agent does not know or cannot establish the identity of the presenter as the owner of the security, including the establishment of the identity of a parent requesting payment on behalf of a minor child, as provided in Sec 321.7(c) of the circular.

(f) If the presenter does not sign his or her name in ink as it is inscribed on the security and show a home or business address. (See also Sec. 321.7(b) and (c) of the circular.)

(g) If the presenter's social security number is not shown in the inscription and he or she refuses to furnish the number.

(h) If the security bears a material irregularity, such as an illegible, incomplete or unauthorized inscription, issue date or issuing agent's validating stamp impression; or if any essential part of the security appears to have been altered or is mutilated or defaced in such a manner as to create doubt or arouse suspicion.

(i) If the security is registered in the name of a corporation, association, partnership, or other organization, or a guardian, administrator, trustee, or other fiduciary.

(j) If Treasury regulations require the submission of documentary evidence to support the redemption, as in the case of deceased owners, incompetents, or minors under legal guardianship, or the change of an owner's name other than by marriage.

(k) If the presenter is a minor who, in the opinion of the agent, is not of sufficient competency and understanding to execute the request for payment and comprehend the nature of the act.

(l) If it is known to the agent that the owner has been legally declared incompetent to manage his or her affairs.

(m) If partial redemption is requested.

Securities which an agent may not redeem because of the limitations in Sec. 321.9 above should ordinarily be forwarded to a Federal Reserve Bank for handling. However, if the SSN requirement (Sec. 321.9(g)) is not satisfied return the bonds to the presenter.

If an agent is willing to assume full responsibility, it may make payment of an eligible security which bears a minor irregularity, such as a misspelled name, a transposition of letters, etc., because of its knowledge of the facts or because it wishes to rely on the integrity of the owner.

321.10 *Responsibilities of paying agents.*

(a) Payment of securities. A financial institution qualified as a paying agent is required to cash eligible saving bonds and savings notes for any presenter, whether or not a customer, during its regular business hours, in accordance with the provisions of this Circular and its Appendix, and the Treasury Identification Guide for Cashing United States Savings Bonds (Form PD 3900 dated October 1971 and revised November 1983.)

(b) Restrictions. A paying agent shall not advance money, or make loans on, or discount the redemption value of securities, nor in any manner assist others to do so. An agent shall not pay an owner the current value of a security and then defer presentation to the Treasury for the purpose of obtaining for its own profit an increased value.

Paying agents shall not make any charge whatever to owners of savings bonds and savings notes for redeeming securities.

321.11 *Payment.*

(a) Examination. Before making payment of a security, the agent shall examine it to determine that it is eligible for redemption and is one the agent is authorized to pay under the provisions of this Circular.

(b) Identification. The agent shall determine that the individual presenting the security is the same person whose name is inscribed as owner or coowner, except as provided in Sec. 321.7(b) and (c) of the circular. Unless the presenter is a person whose identity is well-known to the agent, or is an established customer, he or she should be asked to furnish satisfactory identification in accordance with the Treasury instructions and guidelines. At the time of payment, the agent should make a notation on the back of the security, or in its own records, specifying precisely what was relied on to establish the presenter's identity. (Otherwise, the agent runs the risk that no evidence can be developed to show that it acted with due care, in which case it could not be relieved of liability if a loss should develop.)

(c) Execution of request. The agent shall require that the request for payment on the back of each security be executed by the presenter in the presence of one of its officers or authorized employees, unless the agent is qualified under 31 CFR Part 330 and elects to use the special endorsement procedure. If the request has already been executed when the security is presented, it should ordinarily be reexecuted.

(d) Certification of request. An agent is not required to complete the certification to the request for payment on securities it redeems.

321.13 *Cancellation of redeemed securities.*

An agent shall cancel each redeemed security by imprinting the word "PAID" on its face and entering the amount and date of the actual payment and the name, location and code number assigned to the agent by the Federal Reserve Bank. The recordation of this data shall constitute a certification by the agent that the security was redeemed in accordance with the provisions of this Circular, that the identity of the presenter was duly established and that the proceeds were paid to the presenter or remitted to a Federal Reserve Bank in payment for Series HH bonds.

A record of the serial number of and amount paid for each security should be retained by the agent so that settlement can be made if the security is lost in transit. For that purpose, agents are authorized to microfilm the face and back of each security they pay.
